

WIRE
BY DESIGN

KEEPER

KEEPER is among the most versatile mesh patterns available. The scale fits just as nicely on the exterior of a building as it does in the lobby. With the same attention to detail as all Wire By Design products, each individual weld is painstakingly done by hand, one at a time. Submit your most complex idea, **KEEPER** can be fabricated to perform.

At Wire By Design, the possibilities are only limited by your imagination. In addition to the designs featured in our product specifications, we can customize a wire mesh to your particular project needs.

Wire By Design architectural wire mesh is manufactured in Lancaster, Pennsylvania.
