

VERGE

VERGE is designed as a medium scale tensionable mesh, making it perfect for interior applications as well as exterior. Security curtains, parking structure facade, and exterior solar shading are the most commonly specified uses for the pattern.

At Wire By Design, the possibilities are only limited by your imagination. In addition to the designs featured in our product specifications, we can customize a wire mesh to your particular project needs.

Wire By Design architectural wire mesh is manufactured in Lancaster, Pennsylvania.
