

GARGOYLE

WIRE
BY DESIGN

Gargoyle is an extremely durable, one of a kind mesh construction. **Gargoyle** is especially well-suited as the lower panel(s) in elevator cab interiors due to its resistance to dents from heavy foot traffic.

At Wire By Design, the possibilities are only limited by your imagination. In addition to the designs featured in our product specifications, we can customize a wire mesh to your particular project needs.

Wire By Design architectural wire mesh is manufactured in Lancaster, Pennsylvania.
