

**Pattern Specifications**

Open area: 1%

Weight: 2.8 lbs/sq ft

Max width: 78"

Max length: 240"

Material: Stainless Steel

Attachment method: Frame, Flats with Clevis

**Pattern Name: BULLNOSE**

This pattern has a lengthening effect similar to stripes on a shirt. From a distance the like-woven wires draw the eye up or side to side depending on the orientation of the material. Up close, Bullnose has soft round edges which lend itself well as an elevator cab interior, desk façade, or simply add a stainless steel frame and mount to wall.

Wire By Design architectural wire mesh is manufactured in Lancaster, Pennsylvania.

| Common Applications |
|---------------------|
| Elevator Cladding   |
| Desk/Kiosk Façade   |
| Wall Cladding       |

| Environmental Improvements |
|----------------------------|
| Regional Materials         |
| Building Re-use            |

At Wire By Design, the possibilities are only limited by your imagination. In addition to the designs featured in our Product Specifications, we can customize a wire mesh to your particular project needs.
