

Pattern Specifications

Open area: 1%

Weight: 3.25 lbs/sq ft

Max width: 216"

Max length: Unlimited

Material: Stainless Steel

Attachment method: Frame, Clamping Block, Curtain, Flat Bar & Clevis

Pattern Name: GABLE

Often referred to as a herringbone design or chevron weave, Gable truly has a fabric-like feel to it due to its easy flexibility yet exhibits a high degree of durability. For a monolithic design this pattern can be framed, held under tension with a Clamping Block system or Flat Bar and Clevis system. Ideally suited for elevator cab interior, bar/reception desk cladding, as a column wrap, and as a canvas for signage to be attached to.

Wire By Design architectural wire mesh is manufactured in Lancaster, Pennsylvania.

Common Applications
Wall/Elevator Cladding
Column Wrap
Furniture

Environmental Improvements	
Light Reduction	Regional Materials
Building Re-use
