

Pattern Specifications

Open area: 1%

Weight: 2.67 lbs/sq ft

Max width: 96"

Max length: 78"

Material: Stainless Steel

Attachment method: Frame, Flat Bar & Clevis

Pattern Name: ICON

Icon has an attractive dimpled appearance with the durability required for high traffic areas making it a historically popular choice for elevator cladding. The large amount of surface area create a monolithic sheet from a distance but intricately woven wire upon closer inspection reveal a purpose built architectural element.

Wire By Design architectural wire mesh is manufactured in Lancaster, Pennsylvania.

Common Applications
Elevator Cladding
Desk/Kiosk Façade
Wall Cladding

Environmental Improvements
Regional Materials
Building Re-use

At Wire By Design, the possibilities are only limited by your imagination. In addition to the designs featured in our Product Specifications, we can customize a wire mesh to your particular project needs.
