

Pattern Specifications

Open area: 83%

Weight: 1.85 lbs/sq ft

Max width: 20'

Max length: unlimited

Material: Stainless Steel

Attachment method: Frame, Flat Bar & Clevis, Tube Assembly

Pattern Name: SPANDREL

Spandrel is a mesh pattern that works particularly well to reduce HVAC and fire protection equipment by increasing natural airflow in parking garages. While it has a high degree of open area when viewed head-on, as the angle of incidence changes, so does the apparent open area creating a visually interesting and changing façade skin. Spandrel is among the most cost effective mesh types to achieve vertically uninterrupted panels available in generous maximum widths.

Wire By Design architectural wire mesh is manufactured in Lancaster, Pennsylvania.

Common Applications
Exterior Façade
Security Grille
Ceiling

Environmental Improvements
Regional Materials
Daylighting
Building Re-use

At Wire By Design, the possibilities are only limited by your imagination. In addition to the designs featured in our Product Specifications, we can customize a wire mesh to your particular project needs.
