Open area: 48%

Weight: 1.5 lbs/sq ft

Max width: 216"

Max length: Unlimited

Material: Stainless Steel & Brass

Attachment method: Curtain, Frame, Tensioned Eye, Flat Bar & Clevis

**Pattern Name: SWAG**

Using the same tooling as Outrigger but replacing every other wire with brass, Swag is the industry’s only mixed materials flexible mesh of this sort. This pattern is often sought after when an all stainless steel screen is perceived as too cold for a space yet all brass is not quite right either. From a distance this pattern reads as richer than pure stainless steel and more subtle than pure brass. In curtain applications our factory’s width will be the curtain height, and with a maximum height possible of 20’, Swag is well suited as a feature wall in most entrance lobby’s, elevator lobby’s and more.

Wire By Design architectural wire mesh is manufactured in Lancaster, Pennsylvania.

Common Applications
Room Divider
Wall Surfacing

Environmental Improvements	
Light Reduction	Regional Materials
Optimize Energy	Daylight & Views
Building Re-use	UV Protection

At Wire By Design, the possibilities are only limited by your imagination. In addition to the designs featured in our Product Specifications, we can customize a wire mesh to your particular project needs.
