

BLACKOUT

WIRE
BY DESIGN

BLACKOUT is among the most versatile mesh patterns available. The scale fits just as nicely on the exterior of a building as it does in a lobby. The added black powder-coating gives it the pop of color needed for your design as well as the durability to withstand the elements.

At Wire By Design, the possibilities are only limited by your imagination. In addition to the designs featured in our product specifications, we can customize a wire mesh to your particular project needs.

Wire By Design architectural wire mesh is manufactured in Lancaster, Pennsylvania.
